# ABOUT US

North Lincolnshire Community Energy (NLCE) is a Community Benefit Society covering the area of North Lincolnshire. We are part of the family of coops administered by Energy4All.

We provide renewable energy systems (*rooftop solar*) with no upfront cost for local community buildings such as: schools, hubs and other venues, to reduce their energy costs, generate clean energy and lowering their environmental impact and carbon footprint.

# IMPACT SO FAR

Since we started in 2022 NLCE have:

- fitted community owned solar installations at 23 sites in Scunthorpe
- generated over 2.7GWh of clean electricity and saved over 1000 tonnes of CO<sub>2</sub>e
- saved host sites over £200,000 including our local hospice
- gained over 350 members, and raised over £1 million in investments
- hosted over 25 engagements *(from 2024)* for the community, including collaborative events to be able to include energy advice

# GET INVOLVED

There are a few ways to get involved with North Lincolnshire Community Energy:

- Follow us on **social media** and share our details with others in the community
- Sign up for our newsletter on [www.nlce.coop](http://www.nlce.coop)
- Volunteer to join us at an event to engage with others about NLCE's mission, or find us on Community Connect platform.
- Apply to invest in our **Share Offers to become a member**; minimum investment starts at **£50**, target rate of 5% (open to individuals and businesses)
